

## Foal registration

The foal must be identified no later than 12 months after birth and in any event before leaving the holding of birth unless the departure takes place next to its mother (foal and dam are changing at the same time in to same place). Foals aged over 12 months, which are registered for the first time, penalized Not intended for slaughter for human consumption the time of registration.

Breeder state veterinarian to do Identification form which will be clearly marked with a microchip (M) in place , date and signature by veterinarian and stamp. Studbook only accepts identification form adopted by the origin of the stud book, the kind you get on studbook request or by printing of the association's web site Forms tab.

During identification of foal it will be taking hairsample (approx. 20 horse hair from the root), which are DNA-test. Put hairsample into a small Minigrip plastic bag on top of a microchip number and the name of the foal.

After identification, following documents will be send to the studbook:

- Identification form done by veterinarian
- Covering certificate
- Birth certificate
- Hairsample
- 2 pictures (sending is optional, to [fsickantakirjasihteeri@gmail.com](mailto:fsickantakirjasihteeri@gmail.com))

Address:
